## MUTUAL SCREW & SUPPLY BRINGS ON LEE CADMUS AS INTERNET SALES COORDINATOR

*As Employees and Customers Bid Alayne Picnic a Fond Farewell*

ROCHELLE PARK, N.J., July 24, 2012 – Lee Cadmus has joined Mutual Screw & Supply as Internet Sales Coordinator to help grow the company’s burgeoning online business. Cadmus is replacing Alayne Picnic, who had been with Mutual for four years, in a similar capacity.

Cadmus comes to Mutual with an impressive background in warehouse management for the construction industry. He spent the past 13 years at New Jersey-based Advanced Fastener Industries and prior to that worked for A.G.L. Welding Supply also of New Jersey.

His brings a great depth of experience to Mutual: In sales management, Cadmus has a strong track record for customer focus and attention. As a warehouse manager, he has done everything from purchasing stock to speedily shipping it out of the door. Cadmus also has expertise in e-business system management, implementation of best practices and procedures and inventory management.

“With Lee’s sterling industry background, we expect he will quickly become a key contributor to our business and a favorite among customers” said Mutual Screw & Supply President Mark Warner. “He is already familiarized with our 75,000-item strong warehouse of fasteners and will focus on maintaining and building our online business for greater impact and customer satisfaction.”

Cadmus replaces Picnic, who in her years with the company impressed colleagues and customers alike as one of Mutual’s top sales people.

“Alayne loves to travel, so when an opportunity to work in the travel industry came around, we understood that she had to accept it,” said Warner, noting Picnic has visited every continent with the exception of Antarctica.

“We wish her the best while warmly welcoming Lee to our team.”
