

TILE MATTING

100% recycled plastic construction provides added durability while being environmentally sound.

BUILD YOUR OWN MATTING

- Ideal for fitting irregular shaped work areas
- Completely modular - slip-resistant 3/4" thick modular 12" x 12" tiles connect to each other on all sides
- Flow-through holes in tiles allow liquids to drain through so top surface stays dry
- Industrial grade tiles raise work area 3/4" off the floor
- Beveled ramps - alternating yellow and black 2.5" wide ramps on three sides (6" wide ramps also available)
- Ideal for workstations, ADA ramps, walkways, tool rooms, chemical prep rooms, bathrooms, locker rooms, shower rooms, kitchens, food prep, cafeterias, fluid filling areas, work cells, conveyor lines, machining operations, plating walkways
